**Security Bank finances new Fire Truck, Engine #244 for the
Medina County Emergency District #2 and the Devine Volunteer Fire Department**

Devine, TX – Security Bank recently financed a new Fire Truck for the Medina County Emergency District #2 and the Devine Volunteer Fire Department.

Phillip has worked closely with Vikki Kezar, Fred Morales, and Bo Maxwell to secure financing for the new truck. “Security Bank is proud to work with Medina County Emergency Services District #2 and the Devine Volunteer Fire Department to purchase a new fire truck. This partnership means a great deal to us and the future of the Devine Community,” remarked Phillip Fitch, Devine Market President.

“Together we can bring positive changes to Devine. It took the effort of several community members to make this possible. I consider it a privilege to serve on the Medina County ESD #2 board with my fellow commissioners and would be remiss if I did not mention Fred Morales and Bo Maxwell for their efforts. I want to thank Security Bank and Phillip Fitch for financing and mostly our volunteer fire fighters who give selfishly of their time by providing superb fire protection to our citizens,” remarked Vikki Kezar, President Medina County ESD #2.

“The purpose of our department is to provide safety and well being of our community. Our partnership with Medina County ESD #2 has led us to some amazing new equipment as of late. And now with the help of Security Bank, we have Engine 244, which is loaded with top-notch equipment that helps us do our jobs more safely and efficiently. This engine is updating a 1984 engine by allowing us to carry more water, more personnel, newer technology and have the ability to use compressed air foam. Compressed air foam allows for less water use and greater knockdown power when operating at a fire house,” said Chief Jason Johnson.

About Security Bank

Security Bank was founded in 1928 when a group of local investors realized a vision to help the West Texas community overcome what was clearly one of the most tumultuous times in the history of the United States economy – The Great Depression. Security Bank withstood the instability of that era and proved to be an institution of compassion, character and tenacity. In its 84 years, the bank has continued to endure the changes the market has incurred. It remains one of the oldest financial institutions in West Texas and is continually exceeding the market standards in safety and performance ratings. Security Bank has grown to \$775 million in assets and has 12 locations in nine Texas counties. To learn more about Security Bank, log on to www.mysbank.com.
