About Security Bank

Security Bank was founded in 1928 when a group of local investors realized a vision to help the West Texas community overcome what was clearly one of the most tumultuous times in the history of the United States economy – The Great Depression. Security Bank withstood the instability of that era and proved to be an institution of compassion, character and tenacity. In its 86 years, the bank has continued to endure the changes the market has incurred. It remains one of the oldest financial institutions in West Texas and is continually exceeding the market standards in safety and performance ratings. Security Bank has grown to \$800 million in assets and has 12 locations in 9 Texas counties. To learn more about Security Bank, log on to www.mysbank.com.
